#### How She Acquired "Feminine Charm"

A nicely dressed woman sat beside me in the train. Everyone stared at her, I couldn't help doing the same. It was not her beauty of feature that held our eyes, nor her costume. But there was something about her face and expression—I risked it and asked: 'Would you mind telling me how you keep your complexion so dazzlingly pure? Dan't think me impertinent, but you seem over 30, yet haven't a line in your face, and your cheeks are quite peach like. How do you do it?'

Laughing, she said: 'That's easy. I remove my skin. Sounds shocking, doesn't it? But listen. Instead of cometics I use only pure mercolized wax, procurable at any druggist's. I apply this aightly, like cold cream, washing it off mornings. This gently absorbs the soiled, weather beaten film skin, without pain or discomfort, thus revealing the fresh, clear underskin. Every woman has a beautiful complexion underneath, you know. Then, to ward off wrinkles. I use a face bath made by dissolving powdered saxolite (one ounce) in one-half pint witch bazel—a harmless astringent which 'tones' the skin wonderfully. Very simple, isn't it' I thought so. I'm now trying her plan and like it immensely.—Millicent Brown in The Story Teller. (Advertisement.)

During the month of September prop-erty valued at \$2,054,935 and insured for \$151,560, was involved in the forty starms of fire in the city, according to the report of W. H. Bywater, chief of the department. The actual total loss was partment. The actual total loss was \$2508.95, of which \$2206.95 was insured and \$602 uninsured. The average loss per fire was \$78.03. Based on property values the loss was .14 of 1 per cent, and hased on insured values the loss was .1.19 per cent.

hased on insured values the loss was
1.19 per cent.
In suswering the calls the department
traveled 112 miles, stretched 12,100 feet
of love, used 125 gallons of chemicals and
taised 414 feet of ladders. The actual
time used in answering the alarms totaled 30 hours and 30 minutes.
During the month there were 465 inspections of various kinds made by the
chief and hils men. The inspection report indicates that the general condition
of the places inspected was satisfactory.
Minor changes were ordered in a number
of places, and in all instances the orders
were promptly obeyed.
During the month the city was visited
by a number of people interested in fire
insurance, and all expressed themselves
as finding Salt Lake far in advance of
cities of the same size in so far as fire
protection is concerned.

#### QUESTION OF ROAD'S LIABILITY UNIQUE

An interesting legal point, and one which has never been settled finally, is involved in a case now under the advisement of United States District Judge John A. Marshall between the United States and the Union Pacific Railroad company. It involves the settlement of a claim by the postal department for approximately \$12,000 worth of registered mall which was burned up in a Nevada wreck some time ago.

Counsel for the railroad argues that it merely hauls the mail, and that it is government property while en route, and that the road is not liable for its loss in such a case. The car containing the mail was burned following the wreck.

### **Table Queen Bread**

"The Best Bread Baked"

There are many housewives who are mighty proud of their baking. Before Table Queen Bread was introduced, they had a right to be. But it is the same with home baking as it was with the spinning wheel; progress has relegated it to a past field. Of course home baking was all right in its day when nothing better was known. Today, with modern baking plants, like the Royal Baking Company, home baking is no longer a necessity, but bally out of date. The facilities for home baking are inadequate.

If you could get a flour of just the right proportions and mix the dough with supreme skill, it would still be impossible to produce a home loaf equal to Table Queen Bread. The reason is this: It takes a special oven to bake bread right. No home has such an oven. We have.

Table Queen Bread is a bread that is made from the finest material; scientifically mixed, and baked in a special moist heat bread oven. If we charged a dollar a louf for Table Queen Bread, it would be impossible to make it better. There are many housewives who are mighty
